TRANSMITTAL OF SUBSTITUTE SPECIFICATION

This communication is in response to request by Examiner Bianco to correct the specification filed herein, as it had been observed that the section "Summary of the Invention" had been duplicated under the heading "Brief Description of the Drawings". Further inspection of the published application disclosed additional errors in formatting arising out of the translation of the document by the electronic filing system. The errors were loss of formatting in a table, loss of subscripts, superscripts, and special characters. This substitute specification is being submitted under 37 CFR sec. 1.125 (a) at the request of the examiner. The substitute specification contains no new matter. Comparison may be made to the parent cases in this divisional application.
